DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 2 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The recitation “mounted in an inclined manner” is unclear. What element is the sinker inclined relative to? A more positive frame of reference is needed. Also note similar unclear recitations such as “horizontal”, “slant”, and “inclined manner”. The recitation “a belly section connecting to one end of the nose section and a throat section connecting to another end of the nose section” appears inaccurate since the throat section is in between the belly section and the nose section as shown in the figures.

Re claim 2, the claim is confusing since it refers back to claim 1 twice. Presumably claim 2 is actually a combination of two different claims.

Allowable Subject Matter

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action

Art Unit: 3765

Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
